

Angola

Program Start

2015

Key Technical Areas

HIV Prevention, Care, and Treatment Health Systems Strengthening Monitoring and Evaluation

Current Funders

Centers for Disease Control and Prevention (CDC)

Current Projects

Technical Assistance Services to Countries Supported by PEPFAR

ICAP is partnering with the Ministry of Health to provide technical assistance at the facility level in Luanda Province to strengthen HIV testing, care, and treatment, strengthen HIV/TB program integration, and improve systems for timely initiation of antiretroviral therapy, patient retention, and viral suppression. In addition, ICAP is building capacity at the national and sub-national level to assess HIV and HIV/TB clinical program data quality and training health facility staff to apply quality improvement methods to improve patient care. (funded by PEPFAR through the CDC)
